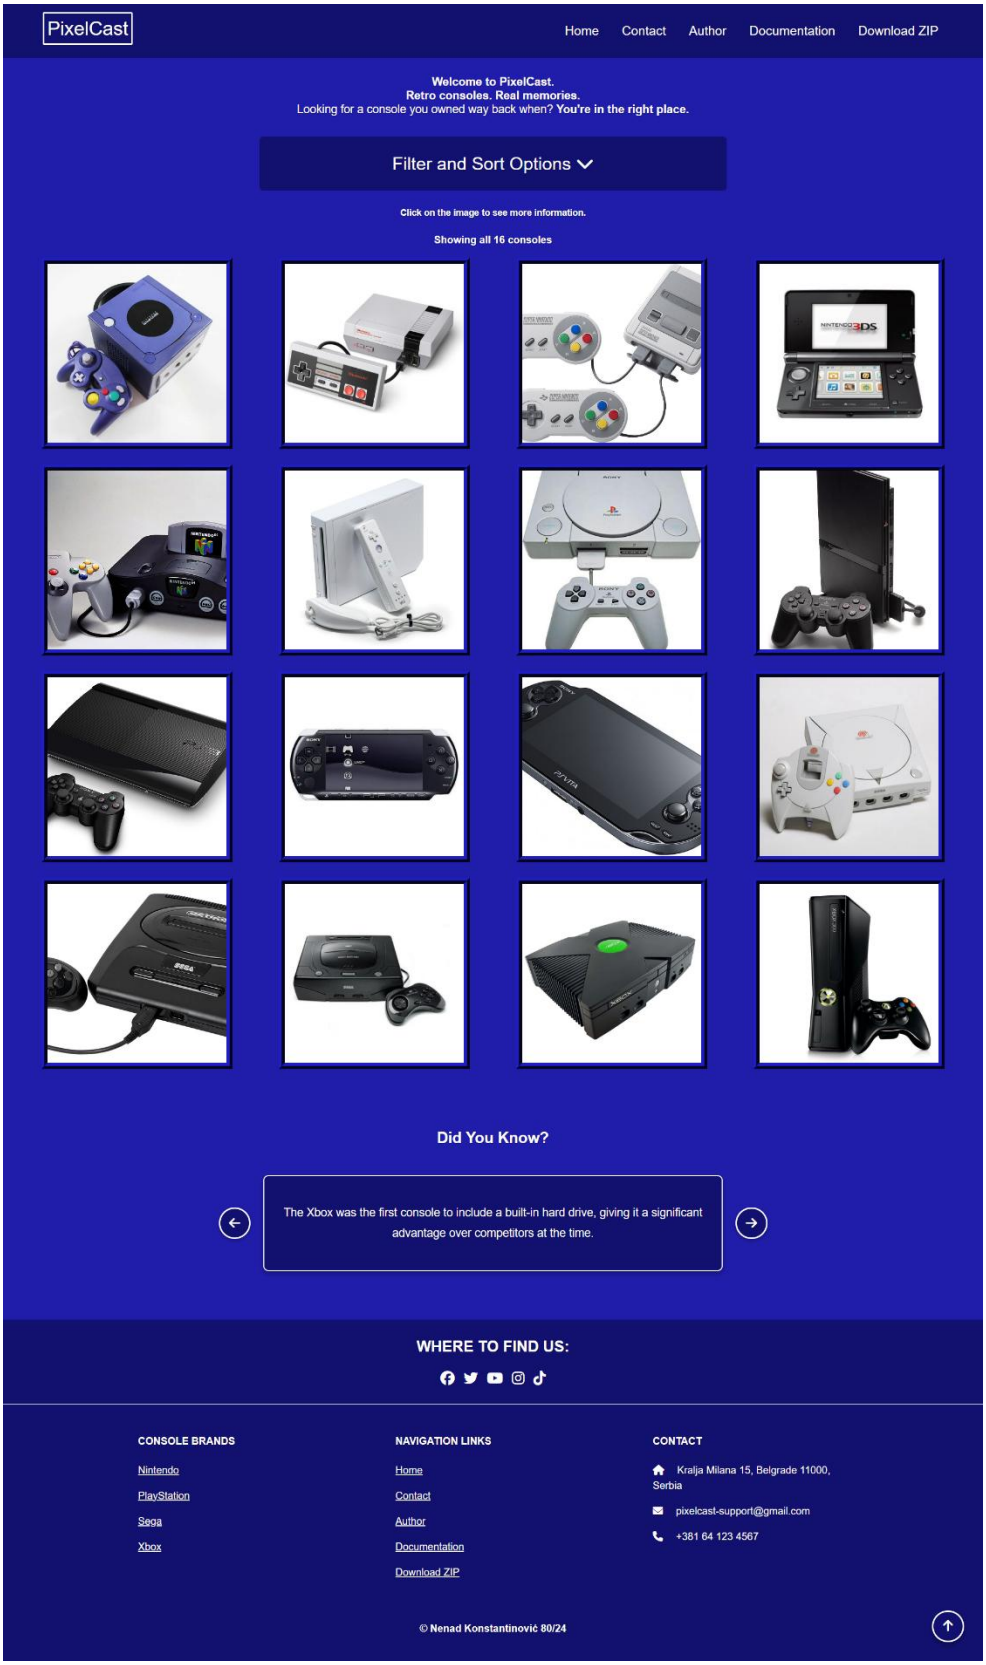
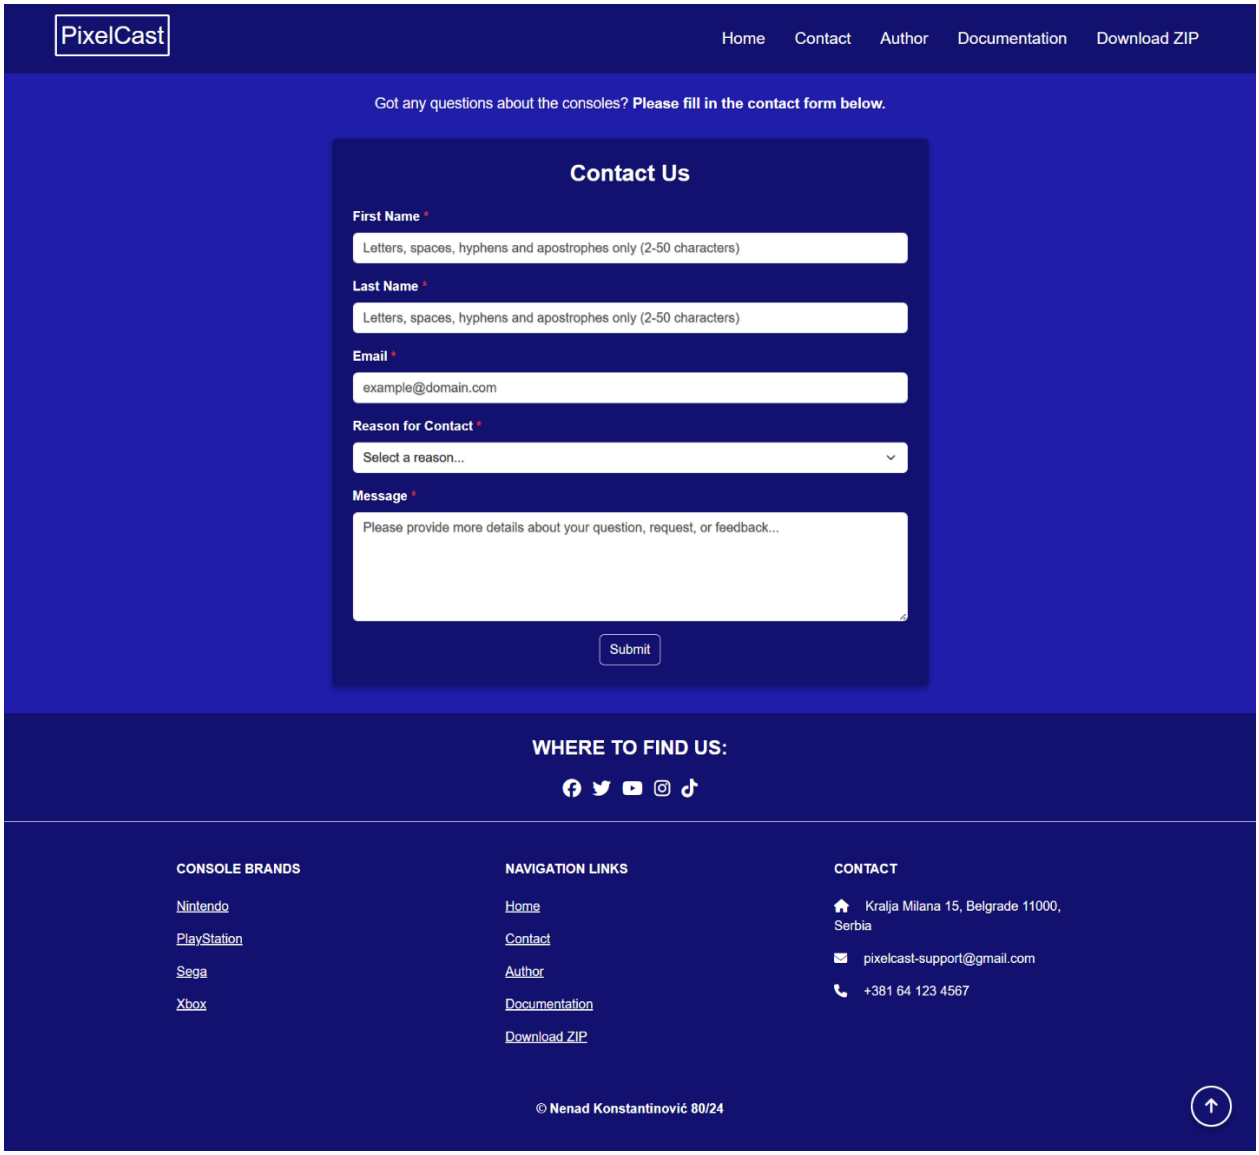
  3) Slike stranica i opisi funkcionalnosti:

index.html: Na početnoj stranici nalazi se katalog retro konzola. Konzole se mogu filtrirati po brendovima pomoću dugmeta ili linkova koji se nalaze u footeru. Dostupno je i sortiranje tih konzola - po nazivu, godini izlaska ili brendu. Nakon svake promene ispisuje se broj prikazanih konzola. Klikom na sliku konzole otvara se detaljni prikaz sa informacijama o konzoli, proizvođaču, godini izlaska i opisu, kao i tri najpoznatije video igre na toj konzoli. Na dnu stranice nalazi se sekcija sa činjenicama o konzolama koja se automatski rotira, kao i strelice koje omogućavaju ručnu rotaciju. Elementi cele stranice se pojavljuju tokom skrolovanja, uz animaciju, a dugme za povratak na vrh stranice se prikazuje nakon određenog skrolovanja. Navigacioni meni i futer sa linkovima ka drugim stranicama, brendovima konzola i društvenim mrežama se automatski generišu.



contact.html: Na ovoj stranici nalazi se kontakt forma koja korisniku omogućava slanje određenje poruke. Ovde postoje polja gde korisniku unosi svoje ime, prezime e-mail adresu i razlog kontakta (gde su u izboru pitanje, zahtev i feedback), kao i poruka koja je dodatno opisuje. Za svako polje vrši se validacija, pa se u slučaju nepravilnog unosa u polje ispisuje poruka koja obaveštava korisnika gde je došlo do greške, a u suprotnom korisnik dobija obaveštajnu poruku o uspehu slanja.



author.html: Stranica o autoru prikazuje informacije o autoru sajta - fotografiju i kratak tekstualni opis.
